BIAS GLOBAL PORTFOLIOS, SPC

BIAS DIVIDEND INCOME FUND – US\$ SEGREGATED PORTFOLIO

This Supplement contains specific information in relation to **BIAS DIVIDEND INCOME FUND – US\$ SEGREGATED PORTFOLIO** (the “Segregated Portfolio”), a US dollar denominated segregated portfolio of **BIAS GLOBAL PORTFOLIOS, SPC** (the “Fund”).

This Supplement forms part of, and should be read together with, the current Information Memorandum of the Fund (the “Memorandum”) including the general description of:

- the Fund and its management and administration;
- its risk factors and conflicts of interest; and
- its general investment objective, strategy and any restrictions.

Other than as defined herein, or as the context requires, any defined terms and phrases used in this Supplement will have the same meaning as given in the Memorandum.

RATIONALE

The Segregated Portfolio offers an equity total return strategy aimed at delivering results superior to a passive large capitalization equity index over the long term with reduced volatility and higher streams of income.

The Segregated Portfolio sets out to accomplish the following objectives:

- Provide investors with a vehicle by which they can achieve better/higher streams of income versus those available from only high grade fixed income securities;
- Deliver growing streams of income by holding a portfolio of primarily common stocks with a history of raising dividends annually for at least five years; and
- Take advantage of an investment strategy that has produced consistently superior total returns in both bull and bear markets.

Furthermore by focusing on high dividend paying companies, volatility, as measured by the portfolio’s standard deviation versus a large cap equity index, may be significantly reduced.

INVESTMENT POLICY

The Segregated Portfolio is invested to achieve a high level of current income and as a secondary objective a steady long-term capital growth in the value of assets. The policy of the Investment Manager and Sub-Manager is to hold a portfolio of global equities, preferred shares, limited partnership interests or other income generating securities.

In selecting investments for the Segregated Portfolio, the Investment Manager and Sub-Manager seek to identify those securities which are anticipated to provide the best opportunities for current income in the first instance and, as a secondary objective, capital appreciation having regard to diversification.

To the extent that the Segregated Portfolio holds cash and cash equivalents it may invest in the highest-rated money market instruments, funds and bank term deposits.

The Segregated Portfolio primarily invests in a wide variety of global equity securities issued throughout the world. The Investment Manager and Sub-Manager primarily manage the Segregated Portfolio as a specialist income producing vehicle. It may invest in “growth” or “value” securities, securities considered to be dividend ‘aristocrats’ or ‘champions’, but in any event in those securities that pay dividends on a consistent basis in excess of the average dividend paid by companies within the index in which the Segregated Portfolio’s target investments are situated.

The Investment Manager and Sub-Manager typically only purchase securities that at the time of purchase have a yield premium to the yield of the benchmark index. The Investment Manager and Sub-Manager combine a top-down macro approach emphasizing economic trends and current investment themes on a global basis with bottom-up security selection based on the Investment Manager and Sub-Manager’s technical screening process combined with fundamental research.

The Investment Manager and Sub-Manager consider companies with above average earnings potential, companies that are dominant within their industry, companies within industries that are undergoing dramatic change and companies that are market leaders in developing industries so long as they fulfill the dividend payment criteria. Other considerations include expected levels of inflation, government policies or actions, currency relationships and prospects for economic growth in a country or region. The Segregated Portfolio may invest a portion of its assets in securities of issuers located in developing countries, often referred to as emerging markets. It presently does not anticipate investing more than 25% of its total assets in such securities.

The Investment Manager and Sub-Manager will typically sell a security when its yield falls below the yield of the benchmark index but also will consider selling a security when in the Investment Manager and Sub-Manager’s opinion there is a risk of significant deterioration in the company’s fundamentals, or there is a change in business strategy or issuer-specific business outlook that affects the original investment case. A security may also be sold if, in the Investment Manager and Sub-Manager’s opinion, a superior investment opportunity arises or as part of a regional rotation trading strategy where in the Investment Manager and Sub-Manager’s opinion sufficient income benefit may be reasonably obtained from this opportunistic trading strategy.

The Segregated Portfolio may invest in foreign currency securities and may hedge the currency risk of existing positions if it feels this is warranted. Investment on a global basis involves fluctuations in the prices of assets, foreign exchange rates, taxes, exchange controls and other political and economic developments.

It is not anticipated that the Segregated Portfolio will utilize borrowings or leverage in furtherance of trading strategies. Derivatives may be used for hedging or income generating purposes only – e.g. covered call option writing.

The Investment Manager and Sub-Manager may not, on behalf of the Segregated Portfolio, make short sales, or invest directly in land or buildings or any options, rights or interest in respect of land or buildings. The Segregated Portfolio shall not take management control of any underlying investment of the Segregated Portfolio.

Investment on an international basis involves fluctuations in the prices of assets, foreign exchange rates, taxes, exchange controls and other political and economic developments. Availability of information, standards of accounting, auditing and financial reporting and the size, expense and liquidity of markets vary widely from country to country and may limit the diversification of the Segregated Portfolio. There can be no assurance that the investments of the Segregated Portfolio will be successful or that the objectives of the Segregated Portfolio will be attained.

In anticipation of or in adverse market conditions the Segregated Portfolio may temporarily hold up to 40% of its assets in cash, cash equivalents or high-quality debt instruments with a maximum maturity of five years from purchase date, such as U.S. government and agency obligations, floating rate securities, corporate bonds, and foreign securities. All debt securities purchased by the Segregated Portfolio must be rated investment grade by at least one major credit rating agency. **During such periods, the Segregated Portfolio may not achieve its investment objective.**

Otherwise, the Segregated Portfolio shall have the investment objective and pursue the investment strategy set out in the Memorandum.

The Directors, the Investment Manager and the Sub-Manager may amend the investment objective and policies of the Segregated Portfolio if they determine (in their discretion) such amendment to be in the best interests of the Shareholders of Shares of such Segregated Portfolio. Any such amendment of the investment objective and policies shall not require consent of the Shareholders of Shares of such Segregated Portfolio but they shall be notified in writing.

Prospective Shareholders should carefully consider the section headed “INVESTMENT POLICY” in the Memorandum.

RISK FACTORS

The value of the Shares may go up as well as down. Accordingly an investment in the Segregated Portfolio involves an element of risk as stated herein.

The following paragraphs explain certain of the material risks involved which prospective investors should carefully consider in evaluating the merits and suitability for them of an investment in Shares of the Segregated Portfolio. This explanation, however, does not purport to be a complete explanation of the risks involved in this offering.

Prior Operating History

The Segregated Portfolio is recently formed and is adopting a strategy without experience or track record even though the Investment Manager and Sub-Manager have successfully utilized a similar strategy in the past. Past performance does not provide any assurance that the Segregated Portfolio will achieve any specific return, be profitable at all, or achieve similar results in the future to those achieved by other investors or entities which utilised the

services of the Investment Manager or Sub-Manager adopting the strategy to be employed by the Segregated Portfolio in the past. In view of the foregoing, investors are warned against placing undue reliance on the historical performance record of the Investment Manager or Sub-Manager.

Value of Shares Will Fluctuate

Prospective investors are cautioned that the investment return and principal value of Shares will fluctuate so that upon withdrawal from the Segregated Portfolio, the Shares may be worth more or less than their initial purchase price.

Reliance upon Investment Manager and Sub-Manager

The Segregated Portfolio relies exclusively on the Investment Manager and Sub-Manager for the management of its investment portfolio, and accordingly, adverse consequences could occur in the event that either the Investment Manager or the Sub-Manager ceases to provide services to the Segregated Portfolio. The Investment Manager and Sub-Manager provide investment advisory and management services to other clients in addition to the Segregated Portfolio. Investments made on behalf of other clients may differ from those made by the Segregated Portfolio and there can be no assurance that a particular investment opportunity that comes to the attention of the Investment Manager or the Sub-Manager will be allocated to the Segregated Portfolio.

Stock Market Risk

The Segregated Portfolio's investments in equity securities may lose value because of declines in the stock market, regardless of how well the companies in which the Segregated Portfolio invests perform. This risk also includes the risk that the stock price of one or more of the companies in the Segregated Portfolio's portfolio will fall, or fail to increase. A company's stock performance can be adversely affected by many factors, including general financial market conditions and specific factors related to a particular company or industry. This risk is generally increased for companies in developing industries, which tend to be more vulnerable to adverse developments. In addition, where stocks are bought for dividend reasons the result may be that potential capital appreciation is constrained.

Foreign Investment Risk

The Segregated Portfolio's investing in non-US investments involves considerations that are not applicable to investing in US investments, including unfavourable changes in currency rates and exchange control regulations, reduced and less reliable information about issuers and markets, less stringent accounting standards, illiquidity of securities and markets, higher commissions and custody fees, local economic or political instability and greater market risk in general. In addition, interest, dividends, capital gains and other income paid by non-US issuers may be subject to withholding and other non-US taxes that may decrease the net return on these investments. The value of each investment is influenced by the outlook of the issuer and by general economic and political conditions, as well as industry and market trends.

Effect of Interest Rate Changes

Changes in interest rates are likely to significantly impact the Segregated Portfolio's trading decisions. An environment of rising interest rates could cause the value of the fixed income securities within the Segregated Portfolio's investment portfolio to decline in value with the preferred share prices impacted more severely than other debt securities. Conversely an environment of falling interest rates could cause the value of the fixed income securities within the Segregated Portfolio's investment portfolio to increase in value.

General

There is no guarantee that the Segregated Portfolio will be successful or that the investment objectives of the Segregated Portfolio will be attained.

Prospective Shareholders should carefully consider the other risks set out in the section headed "CERTAIN RISK FACTORS" in the Memorandum.

Each of the risks described in this Supplement and in the Memorandum could have a material adverse effect on a Shareholder's investment in the Shares (as defined below).

SUMMARY OF INVESTMENT TERMS

Offering of Income Shares of BIAS DIVIDEND INCOME FUND – US\$ SEGREGATED PORTFOLIO

The Fund is offering on a continuous basis up to 1,000,000 Income (I) Shares ("Class I Shares") in the Segregated Portfolio. Such Income (I) Shares are maintained solely in respect of the assets and liabilities attributable to the Segregated Portfolio.

Class I Shares - Offer

The Segregated Portfolio will be conducting a continuous offering of the Class I Shares to potential investors.

The minimum subscription and holding for Class I Shares is US\$5,000 per investor (net of any initial charge or other expenses) provided that the aggregate amount of a subscriber's initial investment in the Shares of all of the Fund's Segregated Portfolios shall be at least US\$25,000. The minimum subscription for additional Class I Shares is US\$1,000 or such lesser amount as determined by the Directors generally or on a case by case basis. Subscriptions for Class I Shares must be made in cash in US dollars.

The Class I Shares were initially offered for purchase at US\$100 per Class I Share. Thereafter, Class I Shares may be purchased at the Net Asset Value per Class I Share. Save as the Directors may otherwise determine, the "Class I Shares Subscription Date" for Class I Shares is each Monday or such other day as determined by the Directors in their discretion.

Subscriptions

Cleared funds representing the subscription amount, together with the Subscription Agreement (and any supporting documentation), must be received by the Administrator c/o Bermuda Investment Advisory Services Limited (BIAS) in Bermuda by 5 p.m. (Bermuda

time) or c/o BIAS (Cayman) Limited in the Cayman Islands by 3 p.m. (Cayman Islands time) on the Business Day falling at least 1 Business Day prior to the relevant Valuation Date, unless otherwise determined by the Directors.

The Class I Shares Subscription Date shall be a “Subscription Date” for the purposes of the Memorandum. For further details, investors should carefully review the sections of the Memorandum entitled “SHARES OF THE FUND; Procedure for Applications”.

Class I Shares - Redemption

As of each Monday and at such other times as the Directors may determine in their discretion (a “Class I Shares Redemption Date”), each Shareholder will be permitted to redeem all, or any number of, its Class I Shares at the Net Asset Value per Class I Share prevailing on the Class I Shares Valuation Date, less any adjustment or charges to the redemption price as may be set out in the Memorandum. The minimum redemption from the Segregated Portfolio shall be US\$1,000 or such lesser amount as determined by the Directors generally or on a case by case basis.

The Segregated Portfolio shall maintain specific lock up provisions to guard against market timing or other activities that may adversely affect the performance of the Segregated Portfolio in the hands of long term investors. The lock-up period may be waived at the discretion of the Directors.

- No sales will be permitted from the Segregated Portfolio within the first 90 days from initial purchase.
- A redemption fee of 2% of the value of the Shares sold will be imposed on Class I Shares redeemed within 12 months after their date of purchase, subject to a minimum fee of US\$25. The redemption fee is intended to limit short-term trading and to compensate the Segregated Portfolio for expenses directly related to that type of activity.
- A redemption fee of 1% of the value of the Shares sold will be imposed on Class I Shares redeemed beyond 12 months after their date of purchase, subject to a minimum fee of US\$25.

The redemption fee will be shared equally between the Investment Manager and the appropriate Segregated Portfolio. In all cases, the Directors reserve the right to waive the redemption fee.

Due to certain economies involved, each Segregated Portfolio may waive the redemption fee for accounts opened pursuant to certain “black box programs” or disciplined asset allocation platforms that a financial institution has put in place where the investment decisions are made at the firm level. To qualify for the waiver, “black-box” and asset allocation accounts must be pre-approved by the Investment Manager and reasonably believed not to engage in market timing activities. (See *Market Timing*, below.) Each Segregated Portfolio reserves the right to terminate or modify the terms of the redemption fee waiver at any time.

The Fund will use the first-in, first-out (FIFO) method to determine the holding period. Under this method, the date of the redemption will be compared to the earliest purchase date of

Shares of a particular Segregated Portfolio held in a Shareholder's account. If this holding period is 90 days or less, the redemption fee will be assessed.

The Fund does not permit market timing. Each Segregated Portfolio may restrict or refuse purchase orders and exchanges by market timers identified by the Segregated Portfolio or its agents. Market timing is defined as effecting frequent trades into or out of a Segregated Portfolio in an effort to anticipate or time market movements. Due to the frequent and disruptive nature of this activity, it can adversely impact the ability of the Investment Manager to invest assets in an orderly, long term manner, which in turn, may adversely impact the performance of a Segregated Portfolio.

The Fund attempts to identify investors who appear to engage in market timing and to take reasonable steps to deter such activity. Nevertheless, the Fund cannot always identify or reasonably detect market timing activity. The nature of the efforts undertaken and the resulting action by the Fund depends, among other things, on the type of shareholder account. It is difficult for the Fund to detect market timing activity in omnibus accounts registered in the name of a financial intermediary or plan sponsor. If market timing is detected in an omnibus account, the Fund may request that the intermediary or plan sponsor take action to prevent the particular investor or investors from engaging in that trading. Rejection of future purchases by a retirement plan because of market timing activity by one or more plan participants is likely to impose adverse consequences on the plan and on other participants who did not engage in market timing. To avoid these consequences, for retirement plans, the Fund generally will communicate with the intermediary or plan sponsor and request that the intermediary or plan sponsor take action to cause the market timing activity by that participant or participants to cease. If market timing activity recurs, the Fund may refuse all future purchases from the plan, including those of plan participants not involved in the activity. The identification of market timing involves judgments that are inherently subjective and the above actions alone or taken together with other means by which the Fund seeks to discourage market timing (through the use of redemption fees, for example) cannot eliminate the possibility that market timing activity in the Fund will occur.

Shareholders must give at least 2 days prior written notice of their intention to redeem their Class I Shares as of the Class I Shares Redemption Date. Subject to the Directors' discretion to determine otherwise, requests received less than 2 days prior to the proposed Class I Shares Redemption Date will be held over until the next Class I Shares Redemption Date and will be redeemed at the price applicable to that later Class I Shares Redemption Date.

The Directors have the absolute discretion to accept or reject any redemption request.

Payment for Shares redeemed will be made from the assets attributable to the Class of the Shares redeemed and will be denominated in U.S. Dollars. The Fund intends to make the redemption payment within 5 Business Days after the Valuation Day upon which the redemption calculation is made.

If the Segregated Portfolio receives redemption requests which in the aggregate exceed 5% of the number of Shares or US\$100,000, and where the Directors determine that settlement of redemptions of such volume may materially prejudice the interests of the remaining Members or the Segregated Portfolio, the Directors may scale down on a pro-rata basis each settlement to an upper limit of 5% of the number of Shares or US\$100,000 with the remainder being settled within 5 further Business Days.

Interest earned on a Shareholder's funds from the time of processing the redemption to the time of payment of the redemption proceeds accrues to the benefit of the Segregated Portfolio.

The Class I Shares Redemption Date shall be a "Redemption Date" for the purposes of the Memorandum. For further details, investors should carefully review the sections of the Memorandum entitled "SHARES OF THE FUND; Procedure for Redemptions".

Switching

Investors may exchange some or all of their Class I Shares in the Segregated Portfolio to the Shares of any Class in another Segregated Portfolio on the Redemption Date for the Class I Shares by giving a switching notice to the Sub-Manager, provided that the initial lock-up period for the Class I Shares has expired. The lock-up period may be waived at the discretion of the Directors. The deadline for receipt of such switching notices shall be the same as the deadline for redemption notices described in the section of this Supplement relating to Redemptions.

A switch will constitute a redemption of the Shares of one Class and a subscription for the Shares of another on the relevant Redemption Date, and, accordingly, shall be subject to the subscription and redemption provisions described in the Memorandum and in the relevant Supplements. In particular, no switches may occur when the Net Asset Value per Share of the relevant Class is suspended.

A switch fee of one half of the Redemption Fee, subject to a minimum fee of US\$25, will be charged subject to the discretion of the Directors on all switches between the Segregated Portfolio and BIAS Short Duration Income Fund – US\$ Segregated Portfolio or BIAS Global Balanced Fund – US\$ Segregated Portfolio. No switch fee will be charged between the Segregated Portfolio and BIAS Global Equities Fund – US\$ Segregated Portfolio.

Switch fees will be shared equally between the Investment Manager and the Segregated Portfolio.

Valuations

The assets of Class I Shares of the Segregated Portfolio will be valued in accordance with the Memorandum and the Articles of Association and investors should carefully review the sections of the Memorandum entitled "SHARES OF THE FUND; Determination of Net Asset Value".

Notwithstanding the foregoing, if, in the reasonable judgment of the Directors, in their sole and absolute discretion, the listed price for any security attributable to the Segregated Portfolio does not accurately reflect the value of such security, or the Directors are unable to obtain an accurate price from a broker or brokers, the Directors may value such security at a price which is greater or less than the quoted market price for such security so as to reflect the true value thereof.

The Net Asset Value per share of Class I Shares of the Segregated Portfolio will be calculated as of the close of business each Friday (or on the next available business day of the Fund), and such date shall be a Class I Share Valuation Date. The Class I Share Valuation Date shall be a "Valuation Date" for the purposes of the Memorandum.

Listing

Class I Shares are listed on the Cayman Islands Stock Exchange and on the Bermuda Stock Exchange.

Distributions

The Segregated Portfolio intends to make distributions of substantially all or a portion of its net investment income quarterly to investors. Distributions may be payable in cash or in additional Class I Shares. The Segregated Portfolio may at times in its discretion pay out less than the entire amount of net investment income earned in any particular period and may at times pay out such accumulated undistributed income earned in other periods in order to permit the Segregated Portfolio to maintain a more stable level of distributions. As a result, the distribution paid by the Segregated Portfolio to investors for any particular period may be more or less than the amount of net investment income earned by the Segregated Portfolio during such period. The Segregated Portfolio however is not required to maintain a stable level of distributions to investors.

The Segregated Portfolio may also make additional distributions at the Directors' discretion of capital gains from time to time.

Reinvestment Option

Investors may choose to receive new shares in the Segregated Portfolio instead of an income distribution by making an election on original investment or at any time thereafter so long as the election is in writing and is received by the Administrator c/o Bermuda Investment Advisory Services Limited or c/o BIAS (Cayman) Limited no fewer than 10 (ten) business days before the regular quarter end days (31 December, 31 March, 30 June, 30 September).

Reinvestments will be made in additional full and fractional shares of the same class of shares at the NAV as of the close of business on the reinvestment date, which is the NAV next computed for the Segregated Portfolio after the respective quarter end day.

Undeliverable Distributions

If funds representing a distribution are returned as 'undeliverable', the Segregated Portfolio may reinvest the proceeds in the shares of the Segregated Portfolio at the prevailing NAV when the funds are so returned. In addition, the Segregated Portfolio may automatically reinvest all future distributions in the Shares of the Segregated Portfolio.

Tax Considerations

Although the Fund is available to Eligible Investors only, investors are urged to consult their tax advisors before making an investment decision regarding the Fund in particular as to the effect it may have on the investor's particular tax situation.

FEES AND EXPENSES

Management Fee

The Class I Shares of the Segregated Portfolio will pay to the Investment Manager from the assets of Class I Shares of the Segregated Portfolio a management fee not exceeding 1.50%

per annum of the Net Asset Value of such Class I Shares, accrued and calculated weekly and paid monthly in arrears based on such Net Asset Value prevailing on the Class I Shares Valuation Date, at the end of the week to which the Management Fee relates.

Expenses

Administration Fees – The Administrator is entitled to receive fees amounting to 0.10% per annum based on the weekly combined Net Asset Values of all Segregated Portfolios, (prorated by Segregated Portfolio and Class) and subject to an annual minimum fee of US\$30,000 per Segregated Portfolio. The administration fee is calculated weekly and paid monthly in arrears.

Custodial Fees – The Secondary Custodian is entitled to receive fees amounting to 0.10% per annum based on the average weekly Net Asset Value of the Segregated Portfolio. The custody fee is calculated weekly and paid monthly in arrears.

Reallowances – The Investment Manager in the ordinary course of business may purchase investment funds managed by third party investment managers from whom they receive rebates of management fees which will be shared equally with the Segregated Portfolio.

Further details of the fees to and expenses payable by the Segregated Portfolio are set out in the Memorandum under the section headed “FEES AND EXPENSES”. The Segregated Portfolio will pay its *pro rata* share of the organizational expenses of the Fund. The Segregated Portfolio is not responsible for the expenses of any other Segregated Portfolio of the Fund.

ELIGIBLE INVESTORS AND TAXATION

The Shares may be purchased only by “Eligible Investors,” as described in the Memorandum. The Fund may in the future offer the Shares to Restricted Persons but only in a limited number of cases and then only after supplementary offering materials have been distributed to such potential investors (such as, without limitation, U.S. tax-exempt investors). Investors should carefully review the sections of the Memorandum entitled ‘ELIGIBLE INVESTORS’ and “TAXATION”.

GENERAL INFORMATION

Investment Manager

BIAS Asset Management Limited was established on 19th April 1999 as a Cayman Islands exempted company to concentrate on portfolio management for high net worth individuals, trust clients, pension plans, captive insurance companies and other institutions. The company is able to provide a unique and comprehensive investment service to clients who wish to diversify globally.

The Investment Manager has entered into an agreement to delegate its investment management responsibilities to Bermuda Investment Advisory Services Limited (the “Sub-Manager” or “BIAS”), a Bermuda company incorporated in 1991 licensed by the Bermuda Monetary Authority under the Investment Business Act 2003. BIAS is a well established independent investment advisory and management firm providing services to high net worth individuals, trust clients, corporations, institutions including captive insurance companies and pension plan sponsors and the small investor. More information may be obtained about BIAS on its website – www.bias.bm.

Services provided by BIAS to the Investment Manager will not result in additional cost to the Segregated Portfolio or the Shareholder.

Benchmarks

The benchmark index that the Segregated Portfolio will use will be:

- 55% US S&P 500 Dividend Aristocrat Index
- 5% S&P Canadian Dividend Aristocrat Index
- 30% S&P European Dividend Aristocrat Index
- 10% S&P Pan Asia Dividend Aristocrat Index
